

Clark Forklift Part

Clark Forklift Parts - At present, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific parts fabricated for 20 distinctive brands of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark features a phenomenal Parts Supply team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark's relentless effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has chosen the very economical and beneficial system of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most effective approaches of manufacturing facility management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The contemporary value engineering agenda combines progressive product development and delivers improved customer support and service within the industry.
