

## Meritor Part

Meritor Parts - Meritor is a leading global supplier which is proudly established on a one hundred year custom of service and quality. They focus on various integrated systems, modules and components to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor values the wishes of their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only employing future focused people. These top-caliber people could quickly get used to to changing surroundings and freely exhibit the level of performance and commitment needed in order to get results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers all of their workers various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of their global engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group which is committed to ensuring optimum development at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 countries.

They have their supplier network that is specially located to be able to support the growth of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each and every part of the business. The DFSS or likewise known as Design for Six Sigma ensures product reliability within each and every region. The team is also included transactional Green Belts who utilize Six Sigma tools to business methods and apply lean techniques.
