

Forklift Spreader Bar

Forklift Spreader Bars - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader business all-around the globe. They have been a devoted manufacturer of spreaders intended for different applications such as the handling of containers, swop bodies and trailers.

Engineering is done in-house by means of using all the newest FEM tools and CAD systems. The ELME company currently employees more than one hundred twenty five workers. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry all-over the globe.

The product series of ELME comprise many spreaders for different container and trailer handling operations. A few of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge range of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made more than 1150 spreaders by using high quality components to guarantee reliability and excellent standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market response and inventive modular spreader concept.
