

## TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each international trade. Transporting industrial goods happens each and every day on our industrious world. Originally innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained recognition following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread globally.

In 1949, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the business is simply known as TCM Corporation. Over the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation with the industry. TCM started building forklift manufacturing locations outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With over fifty years of accumulated expertise and technology, TCM has been proudly manufacturing various models of industrial forklifts, making their models known all over the globe. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling business.
